

Annihilation

Lights

Tell me why you hurt me
What's your fascination?
Come and bring your body to me
I crave annihilation
Tell me why you need love
For the entertainment?
Come and bring your body to me
I crave annihilation

Tell me what the point is
In over complication
You leave and then you're coming back again
I'm running out of patience
I'm so in love with loneliness
And I fucking hate it
Nothing seems to burn me like you do
I crave annihilation

Tell me why you hurt me
What's your fascination?
Come and bring your body to me
I crave annihilation
Tell me why you need love
For the entertainment?
Come and bring your body to me
I crave annihilation

I crave annihilation
I crave annihilation

Tell me why you hurt me
What's your fascination?
Come and bring your body to me
I crave annihilation
Tell me why you need love
For the entertainment?
Come and bring your body to me
I crave annihilation

I was alone when I felt your touch
And it took me back again to the edge of my mind
I was alive when I wanted to die
That was where you left me but I kept coming back every time

Tell me why you hurt me
What's your fascination?
Come and bring your body to me
I crave annihilation
Tell me why you need love
For the entertainment?
Come and bring your body to me
I crave annihilation

I crave annihilation
I crave annihilation
I crave annihilation
I crave annihilation
