

## Better Days

### Lights

It would be nice to not care  
As much as I do  
It would be nice to be there  
Right beside you

When the sky starts falling  
Don't call it a sunset  
Peace comes crawling  
But I don't feel it yet  
Better days, better days  
Tell me better days  
Are on the way

Better days, better days  
Tell me better days  
Are on the way

I would love you to hold me underwater  
Something about you tells me  
To hold you longer  
If the sky starts falling  
We could be two stars  
And the moment we're drowning  
The world could be ours

Better days, better days  
Tell me better days  
Are on the way

Better days, better days  
Tell me better days  
Are on the way
