

Clingy

Lights

I like it when your door is open
The way you turn your back and flip your hair
You can always catch me watching
'Cause I know that you're always unaware

And I don't like to waste my time
But you got me hanging around
And I know that you say you're mine
But I feel like I'm chasing you down

I feel clingy
I'm never like this
I feel clingy now
You got me feeling clingy
I'm never like this
I feel clingy now

I promise you that I'll deliver
Every little bit that I can
But I feel you slipping through my fingers
Even when my heart is in your hands

And I don't like to waste my time
But you got me hanging around
And I know that you say you're mine
But I feel like I'm chasing you down

I feel clingy
I'm never like this
I feel clingy now
You got me feeling clingy
I'm never like this
I feel clingy now

It's not enough that you might want me
I'm hanging on to every word you say
Come a little closer to me
I want you every hour of the day
It's not enough that you might want me
I'm hanging on to every word you say
Come a little closer to me
I want you every hour of the day

I feel clingy
I'm never like this
I feel clingy now
You got me feeling clingy
I'm never like this
I feel clingy now
