## Lights

I'm headed down a rabbit hole  
does anybody want anything  
i'm gonna be a while  
be away all week  
I'm not gonna answer texts  
fuck it i'll delete  
all of my contacts  
but i won't really though  
because i need attention  
i'm an attention hoe  
i better post a picture  
so you know i'm alive  
so you can think about me

i swear this isn't me  
this is the damage talking  
it's the damage talking  
i swear this isn't me  
this is the damage talking  
it's the damage talking

i better not get out of hand  
cause nobody likes a crazy bitch  
so i'll go to therapy and blame myself  
and they'll validate me cause i pay them to  
and when i get home i'm gonna lay there awake  
tryna to figure out how not to make a mistake  
when i make them all think i'm bulletproof  
i better goddamn be telling the truth

i swear this isn't me  
this is the damage talking  
it's the damage talking  
i swear this isn't me  
this is the damage talking  
it's the damage talking

life is simple really when it looks you in the eye  
life is simple really you just keep the dream alive

i swear this isn't me  
this is the damage talking  
it's the damage talking  
i swear this isn't me  
this is the damage talking  
it's the damage talking

i swear this isn't me  
this is the damage talking  
it's the damage talking  
i swear this isn't me  
this is the damage talking  
it's the damage talking
