# Dead End

**Lights**

It was a cheap shot, and I'm sorry
All the money in the world doesn't buy you faith
Don't worry

If you're trying to lose me, it ain't easy
But you're doing a good job
Keeping your back up
Tearing my heart up
Packing it all up

But I keep trying (I keep trying)
I don't wanna believe it
Keep on driving (Keep on driving)
Trying not to see that

But I keep trying (I keep trying)
I don't wanna believe it
Keep on driving (Keep on driving)
Trying not to see that

It's a dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

It's a dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

How come I love seeing your name coming up on my phone
Even though I know it'll only lead us down that road again

Changes, changes coming, I feel it coming

But I keep trying (I keep trying)
I don't wanna believe it
Keep on driving (Keep on driving)
Trying not to see that

It's a dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

It's a dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

I keep chasing you further, down
I can't get over, get me over
I keep giving you my love
But you just keep me running

Just keep me running
To a dead end

It's a dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

Dead end, dead end, dead end
Dead end, dead end, dead end
Dead end, dead end, dead end
It's a dead end road

I keep chasing you further, down
I can't get over, get me over
I keep giving you my love
But you just keep me running
Just keep me running
To a dead end

I keep chasing you further, down
I can't get over, get me over
I keep giving you my love
But you just keep me running
Just keep me running
To a dead end
