Drift Away

Lights

Summer haze
I've been in a daze for two whole days
Slept the weekend and the world away
But I'm still so tired
Act your age
Empty Hennessy and your bottled-up rage
Chalk it up to the minimum wage
And being always tired

You know I'd stop if I could
But feeling is too much emotional effort
Hey, it's all good
I'm just trying to keep it together

Man it goes down quick
There ain't enough hours in a day for this shit
No time to get fixed
So we all, we all just
Man it goes down quick
There ain't enough hours in a day for this shit
No time to get fixed
So we all, we all just
Drift away, drift away, drift away
Drift away, drift away, drift away

Act your age
Empty Hennessy and your bottled-up rage
Chalk it up to the minimum wage
And being always tired

You know I'd stop if I could
But feeling is too much emotional effort
Hey, it's all good
I'm just trying to keep it together

Man it goes down quick
There ain't enough hours in a day for this shit
No time to get fixed
So we all, we all just
Man it goes down quick
There ain't enough hours in a day for this shit
No time to get fixed
So we all, we all just
Drift away, drift away, drift away
Drift away, drift away, drift away
