

Easy Money (dEd version)

Lights

I expect you on your worst behaviour
I am a giver but you know I'm not a taker, yeah
When you're riding in the night, I'll be shotgun, yeah
Said you're looking for a friend, well you got one, yeah
Until the last dollar
Until the last dollar

Tell me, would you put your money on me?
Count it - one, two, three
Both of us are trouble with a capital "T"
But you're safe with me
I wanna know baby, would you count on me?
'Cause I'd bet on you, baby, that's easy money
That's easy money

I'll be there in the heat of the cold war
I wanna be the one that you're flipping your coin for
And if money is time, then I'm burning mine
When you're off the line and I'm drinking mine
I'm gonna see that we get all we deserve
'Cause baby you know that I'm a man of my word, so

Tell me, would you put your money on me?
Count it - one, two, three
Both of us are trouble with a capital "T"
But you're safe with me
I wanna know baby, would you count on me?
'Cause I'd bet on you, baby, that's easy money
That's easy money

Easy money
Easy money
Easy money
That's easy money
Easy money

If your bills are late
And you're low on steam
You know what they say
"Only the broke can dream"
And if time is money
And the math is right
You don't gotta spend your money
Baby, just spend the night
If your bills are late
And you're low on steam
You know what they say
"Only the broke can dream"
And if time is money
And the math is right
You don't gotta spend your money
Baby, just spend the night, so

Tell me, would you put your money on me?
Count it - one, two, three
Both of us are trouble with a capital "T"
I wanna know baby, could you count on me?

'Cause I'd bet on you, baby, that's easy money
That's easy money
