

Fever

Lights

24 hours til my brain loses power
24 days til my heart takes over
24 weeks cover my body with flowers
And lock my ashes up in a tower

I'm not the ghost that you want me to be but I
Hope that I can eventually
Work it out for my own sake maybe
But the stars keep aligning
You couldn't plan the timing
I wonder how I'm gonna get you closer
I know you like the attention
But you don't know how to say no
I wanna wake up but I don't

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I think I'm sinking

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I

Tell me I'll be happier if I let myself down easy
Stop trying so hard you'll be better off you'll see
Man you can't play me at my own damn game
Tell me darkness never comes if you stay awake til morning
Problems not a problem if you don't think it's important
Man you can't love me if you forget my name
If you forget my name

But the stars keep aligning
You couldn't plan the timing
I wonder how I'm gonna get you closer
I know you like the attention
But you don't know how to say no
I wanna wake up but I don't

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I think I'm sinking

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I

Stressed
I think I'm overthinking
I think I'm drowning
I think I think I'm sinking

I think I'm stressed
I think I'm overthinking

I think I'm drowning
I think I

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I think I'm sinking

I think I'm stressed
I think I'm overthinking
I think I'm drowning
I think I
