

idk

Lights

I got the feeling I been letting you down
Can't seem to get over this
Guess I'm in love but I been running around
Too scared to finally commit

You move in closer but I'm pulling away
It's just like everything is telling me no
The love you give reminding of the pain
This loneliness is helping me to grow

I said, I don't know
I said, I hope you don't go
I hope you don't

I said, I don't know
I said, I hope you don't go
I hope you don't

I got the feeling I been letting you down
Can't seem to get over this
Guess I'm in love but I been running around
Too scared to finally commit

I'm wondering now is it me or the truth
Could I'd be doing this the rest of my life
Can't seem to make no sense of nothing at all
Throwing darkness on the only light

I said, I don't know
I said, I hope you don't go
I hope you don't

I said, I don't know
I said, I hope you don't go
I hope you don't

I said, I don't know
I said, I hope you don't go
I hope you don't
