## Lights

I know what you wanna say, you don't even gotta say it  
Just cause it's a game doesn't mean I gotta play it  
Yes I'm the real thing, yes I got class  
I'll be taking the highroad, fucking live and laugh last  
I like to look pretty, but don't be fooled  
I go for broke if I don't like the rule  
You know I came up pop but I ain't blowing bubbles  
I'll tell you what I'm not, very good at being subtle  
I'll be relaxing, stoking the coals  
The world is collapsing, you're losing control  
I'll be keeping tea hot, digging your pit  
They say the future comes once and baby this is it

Oh, she got claws  
Fuck it, she got jaws  
She got her guns out, boots up, no bras  
Don't trust nobody, baby we're outlaws  
Rebel with a cause  
Oh, she got jaws

You never wanna see it  
When it's under your nose  
Everything is fine  
When you're keeping your eyes closed  
I know you love to say  
"Stay in your lane"  
It makes you feel better  
When you're showing your fangs  
But I'll be relaxing, stoking the coals  
The world is collapsing, you're losing control  
I'll be keeping the tea hot, while you're taking the piss  
They say the future only happens once, and maybe this is it

Oh, she got claws  
Fuck it, she got jaws  
She got her guns out, boots up, no bras  
Don't trust nobody, baby we're outlaws  
Rebel with a cause  
Oh, she got jaws

I been looking for most of my life  
A place to get high, a place to just ride  
I been looking for peace of my mind  
Best of my time, I'll ride 'til I die
