

Moonshine

Lights

This spot where I'm stood
It's easy coming
It's got me feeling good

It's just like I've been liberated, illuminated, diamond plated
Since we've been going out in public, causing a ruckus
Stars above us, they can't touch us

Moonshine
This is my time
Sun goes down and I come alive
Midnight sun in my eyes
Stars are blazing, I feel amazing
I sleep through the moon
Wait up for the moonshine
This is my time

Oh, you're gonna take me down
Oh, we're gonna paint the town
Oh, you're gonna save me now
Oh, you're gonna take me down

Outside playing
4 in the AM
Graveyard laying
Talking about the day world dying
Rollin' and stylin'
Fresh and flyin'
Midnight ridin'

Moonshine
This is my time
Sun goes down and I come alive
Midnight sun in my eyes
Stars are blazing, I feel amazing
I sleep through the moon
Wait up for the moonshine
This is my time

If follow you in, I'm going all in
Gonna cannonball
And let the night come crawling and hear the darkside calling
If follow you in, I'm going all in
Gonna cannonball
And let the night come crawling and hear the darkside calling

Moonshine
This is my time
Sun goes down and I come alive
Midnight sun in my eyes
Stars are blazing, I feel amazing
I sleep through the moon
Wait up for the moonshine
This is my time
Moonshine
This is my time
Sun goes down and I come alive

Midnight sun in my eyes
Stars are blazing, I feel amazing
I sleep through the moon
Wait up for the moonshine
This is my time

Hear the darkside calling
Hear the darkside calling
