

nothing new

Lights

Last night I had a dream about you
You were a cat or some shit
And I don't know how but you spoke English
We sat at a table just talking about nonsense
I don't really know what it means

But when I woke up it brought me back
To all that pain and I can't handle that
I don't want to let go again
And now slow mo replay keeps playing back

I had it hard enough the first time
But here you go to tell me again

Go ahead wish me the best
Just get it off your chest
Then by the time I left
You're switching me from blue to green
This ain't nothing new

And if I had to guess
That when you're lonely next
You'll look into your text
Asking me how I'm doing
This ain't nothing new

Your thoughts try to make sense
Out of all the nonsense
Shake down monuments
Overthink every consequence
Sentiments turn into arguments

But in my sleep I picture the green lights
Room temperature liquor and cool nights
There are no wrongs if there are no rights
Don't make me come down out of these heights

You put so much of yourself on hold
Just in case some shit goes off the road
You don't wanna admit you don't know
That maybe everything will be alright
But if you leave then maybe one more time
One more time before you go

Go ahead wish me the best
Just get it off your chest
Then by the time I left
You're switching me from blue to green
This ain't nothing new

And if I had to guess
That when you're lonely next
You'll look into your text
Asking me how I'm doing
This ain't nothing new
