

# Oil and Water

Lights

Gone when you get stuck  
Sleeping when you wake up  
Lover on the other coast  
Off to the races  
Headed other places  
Chasing a familiar ghost

No one said it would be this hard  
How could I know  
Why do we always get so far  
Before we let go

And we separate  
Nothing is the same forever  
See you drive away  
Wish I could make you stay  
Oil, oil and water  
Oil, oil and water

Psycho season  
Watching you leaving  
Thinking I could change the rules  
Rocks on the ocean, wheels in motion  
Wishing is a game of fools

No one said it would be this hard  
How could I know  
Why do we always get so far  
Before we let go

And we separate  
Nothing is the same forever  
See you drive away  
Wish I could make you stay  
Oil, oil and water  
Oil, oil and water

Kicking, screaming, softly speaking, near apart in ways  
We'll go wander, oil and water always separate  
Kicking, screaming, softly speaking, near apart in ways  
We'll go wander, oil and water always separate

And we separate  
Nothing is the same forever  
See you drive away  
Wish I could make you stay  
Oil, oil and water  
Oil, oil and water
