Okay Okay

Lights

I'm tired of talking about feelings
I'm stuck in a loop
I gotta get out now
Tunnels and walls, staring at ceilings
Always looking for you
I just keep my head down
I always say I'm the happiest sad girl you'll ever meet
Hey, hey, hey
I think that maybe I kinda just need you closer to me
You could say

The floor is lava
We die today
Be my lover
Let's run away
Call me over
Twist the knife
Pull me closer
And I'd be like

Okay okay
Okay okay
Okay, whatever you say
Okay okay
Okay okay
Okay, whatever you say

I am see-through when I'm with you
I've been doing overtime keeping it together
Could convince me of anything
This is matter over mind
Make me feel better
I always say I'm the happiest sad girl you'll ever meet

Hey, hey, hey
I think that maybe I kinda just need you closer to me
You could say

The floor is lava
We die today
Be my lover
Let's run away
Call me over
Twist the knife
Pull me closer
And I'd be like

Okay okay
Okay okay
Okay, whatever you say
Okay okay
Okay okay
Okay, whatever you say

The floor is lava
We die today
Be my lover

Let's run away
Call me over
Twist the knife
Pull me closer
And I'd be like

Okay okay
Okay okay
Okay, whatever you say
Okay okay
Okay okay
Okay, whatever you say

Whatever you say
Okay, whatever you say
Whatever
Whatever you say
Okay, whatever you say
