

Piranha

Lights

Fingers in your pockets
You flash a fang out
Smile at me
Making me weak
I'm holding my heart out
You pull the blind fold down
All around me

'Cause it's harder when I wanna leave
But it's easy that I never see
You're leading me to deep water
And it's okay when I round it up
But it's just death by a thousand cuts
You're keeping me at the bottom

I let you get your teeth in me
'Cause I just need your hands upon my body
Feel the way you want me
You're holding me
I know you only love me when I'm on ya
Want me when you wanna
Piranha
Piranha

You stay in position
Keeping your arms closed
Memories flash
Playing it back
I remember warm nights
Looking for something new
Running it back

'Cause it harder when I wanna leave
But it's easy that I never see
You're keeping me at the bottom

I let you get your teeth in me
'Cause I just need your hands upon my body
Feel the way you want me
You're holding me
I know you only love me when I'm on ya
Want me when you wanna
Piranha
Piranha
Piranha
Piranha

Maybe this place is make believe
All of the things you say to me
Keeping me tangled on a leash

Oh, yeah

Maybe this place is make believe
All of the things you say to me
Keeping me tangled on a leash

I let you get your teeth in me
'Cause I just need your hands upon my body
Feel the way you want me
You're holding me
I know you only love me when I'm on ya
Want me when you wanna
Piranha
Piranha
Piranha
Piranha
Piranha

I let you get your teeth in me
'Cause I just need your hands upon my body
Feel the way you want me
You're holding me
I know you only love me when I'm on ya
Want me when you wanna
