Run

Lights

Remember when we used to say
I don't give a fuck about nothin'
Oh what a feeling, to be scared again
Remember when you used to say
It's all gonna get better someday

'Cause I hate to think I'm stuck here in the real world
It's time to get older
But hold the morning let the night hang on
Time to get older
Just hold the morning, maybe one more time

Til' we run run run run run
Til' we all fall down
All fall down
Run run run run run
Til' we all fall down
All fall down, all fall down
Run run run run run
Til' we all fall down
All fall down
Run run run run run
All day, all night
Til' we all fall down
All fall down
