

Summer Games

Lights

I think you're changing your mind
Starting to see it in your eyes
I used to love a good surprise
And now I'd rather know ahead of time
You said "I love you" too fast
So much for that, girl, summer just started
And we're already done

Yeah, you say I led you on, but you followed me
I follow one of your friends, you unfollow me
Then you block them so they can't see you liking someone just like me
I expected more from you, honestly
Said you want a simple life and that's not me
How you go from that to endin' up with someone just like?

How can you be angry on a night in July?
And be warm with me when it's freezing outside?
You're confusin' me, don't have me wastin' my time
You said "I love you" too fast
So much for that, girl, summer just started
And we're already done

I kept it decent, I kept you sane
I kept it peaceful, don't lie
I kept it decent, even the secrets
Kept it between you and I

Breakin' my heart, tearin' me apart
Breakin' me down when I'm already down
Breakin' my heart

Breakin' my heart, tearin' me apart
Breakin' me down when I'm already down
Breakin' my heart

You said "I love you" too fast
So much for that, girl, summer just started
And we're already done
How can you be angry on a night in July?
And be warm with me when it's freezing outside?
You're confusin' me, don't have me wastin' my time
Don't have me wastin' my time

Summer just started and we're already done
Summer just started and we're already done
Summer just started and we're already done
