## Lights

Baby the night is young  
Pour us up a Sauvignon  
And let the feeling come  
Bring me back to the morning sun

There's no time to waste anymore  
Don't waste my time, come on, get me out the door  
I know you always been the one  
To lift me up like helium

Baby keep on doing it, ain't never gotta stop  
Just keep on doing it, nobody's keeping tabs on us  
Baby don't hold back, let's do it up like that  
Keep on doing it, nobody's keeping tabs on us  
Tabs on us

This ain't gonna be poetry (poetry)  
I'm a hella lot harder to read (harder to read)  
And I can barely breathe (I can barely breathe)  
But baby I know you're feeling me

There's no time and place anymore  
Oh grab my waist, baby get me on the floor (grab my waist, get  
me on the floor)  
I know you'll always be the one  
To pick me up when the night is done

So baby keep on doing it, ain't never gotta stop  
Just keep on doing it, nobody's keeping tabs on us  
Baby don't hold back, let's do it up like that  
Keep on doing it, nobody's keeping tabs on us  
Tabs on us  
Nobody's keeping tabs on us

Baby keep on doing it, ain't never gotta stop  
Just keep on doing it, nobody's keeping tabs on us  
Baby don't hold back, let's do it up like that  
Keep on doing it, nobody's keeping tabs on us  
Tabs on us  
Nobody's keeping tabs on us  
Nobody's keeping tabs on us
