

Until the Light

Lights

I hear when you pull up
Calling from the pickup
I'm tripping down the hallway
You lookin' like a vision
You're talkin' and I listen
You run away like always
So cut the headlights
Keep rolling 'til the sun
We'll fight the good fight
When tomorrow has come
And it's easy pretending we're alright
'Cause we live free, at least...
Until the light
Until the light
('Cause we live free)
Until the light
Until the light
('Cause we live free)
Speeding on the in-roads
Surfin' out the window
There's a fire in your eyes
It's hard to say what I know
Or leaving when I wanna go
'Cause every time a piece of me dies
So cut the headlights
Keep rolling 'til the sun
We'll fight the good fight
When tomorrow has come
And it's easy pretending we're alright
'Cause we live free, at least...
Until the light
Until the light
('Cause we live free)
Until the light
Until the light
('Cause we live free)
'Cause we live free
At least until the light
We waste time we'll never get back
I don't care don't wanna go back
I love you, I know you knew that
I don't know the way you do that
So cut the headlights
Keep rolling 'til the sun
We'll fight the good fight
When tomorrow has come
And it's easy pretending we're alright
'Cause we live free, at least...
Until the light
Until the light
('Cause we live free)
Until the light (until the light)
Until the light
('Cause we live free)
Until the light
Until the light
Go on, go on 'til the light

'Til the light
Until the light
Until the light
