

White Paper Palm Trees

Lights

Why don't you come down and meet me?
Why do you act like you don't care?
Not gonna ask you permission
Don't need to chase you anywhere
Funny, you're repping on socials
Call back to February air
Hand it to myself, I'm better
Better than ever now, I swear

I'm not the same as who I was at the time
Had a lot of love for you, but you let me down
Now days go by that you are not on my mind
Days go by that you are not even on my mind

I put you away
White paper palm tree
Permanent vacay
White paper palm tree
You're still cool to me
In my memory less
White paper palm tree
Islands away
White paper palm trees
Stay that way

So now you come out the woodwork
I said I didn't care at all
I never was what you wanted
You were just sad songs on my wall

I'm not the same as who I was at the time
Had a lot of love for you, but you let me down
Now days go by that you are not on my mind
Days go by that you are not even on my mind

I put you away
White paper palm tree
Permanent vacay
White paper palm tree
You're still cool to me
In my memory less
White paper palm tree
Islands away
White paper palm trees
Stay that way

White paper palm tree
I put you away, white paper palm tree
Islands away
Permanent vacay, white paper palm trees
White paper palm trees
I put you away, white paper palm tree, permanent vacay
Stay that way
White paper palm tree
You're still cool to me
In my memory
