You love it, pull it out and sit right on that wood, ho
You love that ponytail but I already knew it, though
Hop out that white Ghost with them white toes, give a slight pose
Ass fat, pussy pricking poking, he in pipe mode
All my little booty bitches pipe it up and go get busy
Let me see it twerk it for me like your birthday
You got a ponytail swinging, tell them bottle girls bring it
And them broke niggas can't be here in the first place
And all my big bitches drop it, till you pop it out of socket
And then beat one of these in the worst way
Now go and pop something, go and shake something, go and drop something
Pop something, go and shake something, go and drop something
Pop something...
