

Scarlet Retribution

Like A Storm

I got something to say
Motherfucker

And I hope you know
That all hope is gone
Cause your day is done
And the night is long

I've been counting the ways
You have betrayed all things
(I forget nothing)
Now that I'm coming I see that you're running
I've been counting the days
I will repay everything
(Know that it's coming)

Now I see what you are
And you're running so far

I've got something to say
To those who stood in my way
You won't hold me back again
You've got nothing to say
That you can say to my face
I see what you are
Motherfucker

You will never know
All that could have been
Till you pay for all
You have taken from me

I've been counting the ways
You have betrayed all things
(I forget nothing)
Now that I'm coming I see that you're running
I've been counting the days
I will repay everything
(Know that it's coming)

Now I see what you are
And you're running so far

I've got something to say
To those who stood in my way
You won't hold me back again
You've got nothing to say
That you can say to my face
I see what you are...

Front of you
I'm in front of you
Front of you
Right in front of you
Front of you
I'm in front of you
(Now that I'm coming I see that you're running)

(Far)

I'm in front of you
Front of you
Right in front of you
Front of you
I'm in front of you
(Now that I'm coming motherfucker)

I've got something to say
To those who stood in my way
You won't hold me back again
(Know that it's coming)
You've got nothing to say
That you can say to my face
I see what you are
Motherfucker

(I forget nothing)
(Now that I'm coming I see that you're running)
