

ALONE UNTIL I DIE

lil aaron

I hope that you
Never find love
I hope you're alone until you die
Cause I'll be alone until I die
And I hope that you
Never find someone else
Cause unless you come back into my life
I'll be alone until I die

I hope your heart broke
I hope you miss me
I hope that you're still alone in your sixties
I hope you're empty
Cause you know you hurt me
I hope the next guy you date does you dirty
And when you try to sleep at night
I'll be the one thing on your mind
Wishing that you could turn back time
(I know you think about me)

I hope that you
Never find love
I hope you're alone until you die
Cause I'll be alone until I die
And I hope that you
Never find someone else
Cause unless you come back into my life
I'll be alone until I die

I hope you never fall asleep
Cause you know you'll never rest in peace
When every single memory
Replays inside of your head
And I know you're lying through your teeth
When you say that you got over me
Cause I'm what you want and what you need
But I'll never see you again

And when you lay in your grave
I hope you think of my name
I know you'll never clean up
The mess we made
I know you'll never replace
You'll always picture my face
Yeah (I know you think about me)

I hope that you
Never find love
I hope you're alone until you die
Cause I'll be alone until I die
And I hope that you
Never find someone else
Cause unless you come back into my life
I'll be alone until I die

Alone alone alone alone
Alone alone alone alone

Alone alone alone alone
Alone alone alone alone
