

Bills

lil aaron

I told JUDGE play the beat and I fuck it up
I can do whatever I want and pay bills
I can do whatever I want and pay bills, yeah

I can do whatever I want and pay bills
Don't think they know just how good that shit make me feel
Used to be broke but now I'm off it like the pill
I can do whatever I want and pay bills
I can do whatever I want and pay bills
I can do whatever I want and pay bills
Got too much clout now, when they talking I can't hear 'em
I can do whatever I want and pay bills

I do what I want, still making money (I'm still making money)
Career stable, all these labels tryna take it from me
Told em [?] and I might entertain
Press play and walk away, I ain't gotta explain
Yeah, made a quarter mill up in my feeling
Yeah it's really starting to feel like there's [?]
But I'm bout to triple that in the next six
Give me eighteen, I might have a series on Netflix

I can do whatever I want and pay bills
Don't think they know just how good that shit make me feel
Used to be broke but now I'm off it like the pill
I can do whatever I want and pay bills
I can do whatever I want and pay bills
I can do whatever I want and pay bills
Got too much clout now, when they talking I can't hear 'em
I can do whatever I want and pay bills

I can do whatever I want and pay the bills
I just [?] popped a pill
I just do this shit just for the thrill
I saw your bitch in the club, went in for the kill
I do whatever I want and will

I do whatever [?] need a mill

I can do whatever I want and pay bills
Don't think they know just how good that shit make me feel
Used to be broke but now I'm off it like the pill
I can do whatever I want and pay bills
I can do whatever I want and pay bills
I can do whatever I want and pay bills
Got too much clout now, when they talking I can't hear 'em
I can do whatever I want and pay bills

I can do whatever I want and pay bills
I can do whatever I want and pay bills
I can do whatever I want and pay bills
I can do whatever I want and pay bills
