

# Bleach

lil aaron

Last call, started drinking at midnight  
First off I'm not usually this guy

I'm paying the price for the time we wasted  
You got a pretty face but you're pretty basic  
It's getting kinda late and my brain is vacant  
I don't wanna fake it, no  
Saw this going down better in my head  
I thought I'd come around but I hate your friends  
I'll take the salt from my wounds, put it on the rim  
Here we go again, yeah, yeah

Can I get a bartender?  
I'ma need a couple more shots  
I've been on a hard bender  
And there ain't a chance that I'll stop, yeah  
I drew a line, and baby you crossed it  
Need something strong but a little less toxic  
So bartender, can I get a bleach-  
Can I get a bleach on the rocks?

Guess that's the price I pay  
For waking up still wasted  
And I do this every day  
Makes shit so complicated  
I only hit her up when I'm taking drugs (taking drugs)  
Swear I never really meant to fall in love  
But she's always laying here when I'm waking up (waking up)  
Guess I'm gonna have to pour another one

Can I get a bartender?  
I'ma need a couple more shots  
I've been on a hard bender  
And there ain't a chance that I'll stop, yeah  
I drew a line, and baby you crossed it  
Need something strong but a little less toxic  
So bartender, can I get a bleach-  
Can I get a bleach on the rocks?

So chug, chug, chug  
'Cause it's easier to swallow  
Than your love, love, love  
Throw it back like no tomorrow  
So chug, chug, chug  
'Cause it's easier to swallow  
Than your bullshit love  
Throw it back like there is no tomorrow  
There probably won't be

Bartender  
I'ma need a couple more shots (eyo, tell 'em John)  
I've been on a hard bender  
And there ain't a chance that I'll stop, yeah  
I drew a line, and baby you crossed it  
Need something strong but a little less toxic  
So bartender, can I get a bleach-  
Can I get a bleach on the rocks?
