

## Check Plz

**lil aaron**

I told JUDGE play the beat and I'll fuck it up

Check please, check please, check please  
All this diamond 'round my neck look like a hickey  
Got this money with my slime, that's why it's sticky  
But I told them all to chill, this time I'll cover the bill, I'm like  
Check please, check please, check please  
Got this girl I never met givin' me becky  
I do too much work for them to not respect me  
But I told them all to chill, this time I'll cover the bill, I'm like

Check please, check please, check please  
Check please, check please, check please, I'm like  
Check please, check please, check please  
Check please, check please, check please

I remember I was broke, now I'm richer than a bitch  
So much, don't know what to do with it, should feed some starvin' kids  
I should probably see my mama more, I know she miss the kid  
No one told me that all work and no play would go make me rich  
Now I do what I want, when I want, wear what I want, where I want  
Workin' like there's four of me, they asking what lil aaron on  
Took a check, multiply it, I'll do that 'till I die  
But right now ain't for workin' though 'cause we gon celebrate tonight like

Check please, check please, check please
