

## Dark Matter

**lil aaron**

I got my heart shattered  
Weight of the world hit me like a sharp dagger  
Why love come easy just to be so hard after?  
Feel like I'm floating up in the dark matter, in the dark matte

Why does everything that's good come to an end?  
How long's it take a broken heart to mend?  
I'm not asking for you to pretend  
But one day I hope we could still be friends  
'Cause I still love you more than I could put in words  
But I'd be lying if I said this didn't hurt

I got my heart shattered  
Weight of the world hit me like a sharp dagger  
Why love come easy just to be so hard after?  
Feel like I'm floating up in the dark matter, in the dark matte
