

# Hurts

**lil aaron**

Ah, ah, ah, ah  
Ah, ah, ah, ah

Hurts, can't take my mind off the pain  
Why did God make me this way? It's always something  
Hurts, hurts  
Am I making things worse? I guess life just hurts  
Hurts, such a cloud over me, when will my soul be set free?  
He said "Just wait and see"  
Hurts, yeah, it hurts, hurts

I tried to call you but it fuckin' hurts  
I wrote you a song but I forgot the words  
Wish I didn't wanna die, as much as I wanted her  
Used to give me butterflies, now you make my stomach hurt  
Maybe I'm overdramatic  
But now I'm all alone, that's how you wanted to have it  
And I stopped poppin' pills 'cause I don't be wan' be an addict  
But these days, it's gettin' cold on this side of the mattress,  
yeah  
Somebody tell me that it's okay  
'Cause I'm so sick and tired of feelin' broken, yeah  
Somebody tell me I'll be alright  
'Cause I've been tossin' and turnin' up all night, all night, y  
eah  
Maybe I'm better off, I've probably said too much  
Gave you my all but in the end, it was never enough  
I never wanted this, I was in love with you  
Shouldn't have come to this so tell me why

When will my soul be set free?  
He said "Just wait and see", hurts, yeah, it hurts, hurts
