

# Hush

**lil aaron**

I told JUDGE play the beat and I fuck it up

Shush, quiet, hush, let it sink in  
Yeah, yeah, drugs, I've been drinkin'  
Don't let it fade, don't let it fade away  
Shush, quiet, hush, let it sink in

I can feel your body on my body  
I feel like I'm in the lobby of the W (maybe I am)  
I don't know where I am, can't even stand  
I guess I drank too much again  
I need you fucked up, on top of me  
With your clothes off, fuckin' me  
'Til we doze off, and we wake up  
Wake up, fucked up

Don't let it fade, don't let it fade  
Don't let it fade away  
Don't let it fade, don't let it fade  
Don't let it fade away

Shush, quiet, hush, let it sink in  
Yeah, yeah, drugs, I've been drinkin'  
Don't let it fade, don't let it fade away  
Shush, quiet, hush, let it sink in

My chain might make you start a fight with your girl (fight)  
These pills might change your outlook on the world  
My watch made your bitch watch, then say we autopilot (yeah)  
Time stop in Saint Laurent, soon as I walk inside it  
Treat your body like slip and slide, hop on her back and I ride  
Leanin' on me, I hit the spot, she see the back of her eyelids  
She comin' close like 4th and inches, one of y'all gon' start my engine  
I don't got no competition, they ain't even an honorable mention  
Lately, I've been fantasizin', baby, I just can't describe it  
Maybe I should pan or mime it  
I let my hands do the talkin' when we get time in private (yeah)  
Pussy got me feelin' like Lucy in the sky with diamonds

Shush, quiet, hush, let it sink in  
Yeah, yeah, drugs, I've been drinkin'  
Don't let it fade, don't let it fade away  
Shush, quiet, hush, let it sink in

Don't let it fade, don't let it fade, don't let it fade  
Don't let it fade away  
Shush, quiet, hush, let it sink in
