Lurked

lil aaron

I lurked and got hurt
It's my fault, I never learn
I got burned, I'm the worst
I guess I got what I deserve

I seen you post some pictures with a new man
Didn't know you was the type of girl to do that
You broke my heart in two and then you threw it back
Worst part about it, I ain't even get my shoes back

No more playin' nice, better think twice
'Fore you try changin' my mind
I don't want you back, not that bad
Don't care about what we had

But I lurked and got hurt
It's my fault, I never learn
I got burned, I'm the worst
I guess I got what I deserve
Cause I lurked and got burnt
It's my fault, I never learn
I got burned, I'm the worst
I guess I got what I deserve, oh-oh-oh

I prolly should have left you in the past tense
Our love was a Ferrari and you crashed it
Deleted all the pictures we took back then
These days, I ain't really worried where your ass been

No more playin' nice, better think twice
'Fore you try changin' my mind
I don't want you back, not that bad
Don't care about what we had

But I lurked and got hurt
It's my fault, I never learn
I got burned, I'm the worst
I guess I got what I deserve
Cause I lurked and got burnt
It's my fault, I never learn
I got burned, I'm the worst
I guess I got what I deserve, oh-oh-oh
