

# Makin Money

**lil aaron**

Making money now they trying to tell me how to spend it  
They was never with me when I was tryna get it  
I'm making plays, they tryna act like they don't see me  
I don't even care, I'm on another planet  
Keep your advice I don't need your reply  
Get the fuck out my face and get the fuck off my mind  
They was never with me when I was tryna get it

All up in my business tryna change my image  
You wasn't there at the start you ain't gone be at the finish  
Bank account got gifted still ain't feel no different  
They know they ain't with it, they know they ain't with it  
Fuck boys tripping someone come get them  
All up in my feelings I am not familiar, yeah  
I really can't talk right now I'm way too busy  
Way too [?] already forgetting yeah

Making money now they trying to tell me how to spend it  
They was never with me when I was tryna get it  
I'm making plays, they tryna act like they don't see me  
I don't even care, I'm on another planet  
Keep your advice I don't need your reply  
Get the fuck out my face and get the fuck off my mind  
They was never with me when I was tryna get it

Now I've got some guap they all want to talk  
But you ain't give me a shot until I hit the topm yeah  
Everybody want to tell me how to walk, yeah  
That boy hella cocky, I get that a lot  
Champagne dripping off gold ceilings  
Spoons into a pool, you'll be drowning, I'll be swimming  
Way to many feels that we've been focused  
You be crying dearly, I don't know this no

Making money now they trying to tell me how to spend it  
They was never with me when I was tryna get it  
I'm making plays, they tryna act like they don't see me  
I don't even care, I'm on another planet  
Keep your advice I don't need your reply  
Get the fuck out my face and get the fuck off my mind  
They was never with me when I was tryna get it

I'm alright without you, I don't think about you  
I'm alright without you, I don't think about you  
I'm alright without you, I don't think about you  
I'm alright without you, I don't think about you

Making money now they trying to tell me how to spend it
