I know you got options  
I know I'm not the only who's hitting you up  
And I know you got problems, girl  
This money, it could solve them, girl  
I know you got options (yeah!)  
I know I'm not the only who's hitting you up  
And I know you got problems, girl  
This money it could solve them, girl

Just hop inside my whip  
I'm a nightrider (yeah!)  
I'm a nightrider  
Just hop inside my whip  
I'm a nightrider (yeah!)  
I'm a nightrider  
Just hop inside my whip

Lately, I been on and off the drugs  
I think she addicted to the nightlife  
She be dancing in and out of clubs  
Anything to get a little limelight  
She can feel my body going numb  
I can see the demons in her eyes, oh  
When she dancing on that pole, I can't lie  
Pick it up and drop it low, that ass mine  
She keep taking off her clothes to pass time  
I got money I'ma blow all night

I know you got options  
I know I'm not the only who's hitting you up  
And I know you got problems, girl  
This money, it could solve them, girl  
I know you got options  
I know I'm not the only who's hitting you up  
And I know you got problems, girl  
This money it could solve them, girl

Just hop inside my whip  
I'm a nightrider  
I'm a nightrider  
Just hop inside my whip  
I'm a nightrider  
I'm a nightrider  
Just hop inside my whip  
I'm a nightrider  
I'm a nightrider  
Just hop inside my whip  
I'm a nightrider (yeah!)

Another night mixin' the syrup with the grey goose  
I swear I love you and I hate you  
All you ever talk about is problems  
But I promise that the money, it could save you  
'93 Camaro candy painted up, we could drop top  
I could take you anywhere you want to  
Baby, just tell me the word and I'll pull up, money in the trunk

Couple benjamins that you could run through

Just hop inside my whip

Just hop inside my whip (yeah!)

Just hop inside my whip

I'm a nightrider

I'm a nightrider

I'm a nightrider

I'm a nightrider
