Quit

lil aaron

You're gonna fuck me up, and I just got sober
You're my favorite drug, and my worst hangover
Tried to give it up, but you pulled me closer
But you pulled me closer
You're so fucked up, and you're always faded
Only hit me up when you're almost naked
I can't get enough, might as well just face it
Might as well just face it

'Cause sometimes it feels like
I'll never be alright
But I'm just fine being addicted

I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we play, I never win
Somethin' about you, I can't quit
I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we we play, I never win
Somethin' about you, I can't quit

You're gonna fuck me up, but you know I like it
Always showin' up when you're not invited
But I'm so in love, I can't even hide it
I can't even hide it

'Cause sometimes it feels like
I'll never be alright
But I'm just fine being addicted

I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we play, I never win
Somethin' about you, I can't quit
I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we we play, I never win
Somethin' about you, I can't quit

I never thought that I'd be wasting all my time
I never thought that I'd be wasted all my life

I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we play, I never win
Somethin' about you, I can't quit
I tried and I tried to run from it
But it's hard and it's harder to admit
In this game that we we play, I never win
Somethin' about you, I can't quit
