

Stronger

lil aaron

I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger

These days it seems like I can't go to sleep
Without Hennessy and a whole lot of weed
I've been up for days haven't slept in a week
Can't remember the last time
I even went three hours sober
Feel I'm getting closer
Every time I close my eyes I see a Rover
Dripping in designer, just as a reminder
Every time I walk into a room I'm fucking shining
Yeah

I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger

Never thought I'd ever live to see days when prepaids
Turned into three ways with porn stars
I can't even see straight
Haven't slept in three days, but I'm good
I'm still gon' be paid yea
Never thought I'd ever live to see days when prepaids
Turned into three ways with porn stars
I can't even see straight
Haven't slept in three days, but I'm good
I'm still gon' be paid yea

I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
I need another, make it stronger
