

# YSL

lil aaron

Tell me that you feel the same I'll be right there  
I've been tired all the time it's a nightmare  
I got bags under my eyes, baby they YSL  
I got bags under my eyes, baby they YSL  
Sorry if I act suspicious cause' I'm high as hell  
I've been searching for an answer hope I find out  
I got bags under my eyes, baby they YSL  
I got bags under my eyes, baby they YSL

I've got bags under my eyes and they YSL  
I ain't really wanna talk cause' I'm tired as hell  
Having trouble falling asleep every night now  
I take a cup of medicine just to quiet down  
I got a couple bad habits and they piling up  
And everybody say they love me but it's not enough  
I try my best to be the best, but I just had enough

Tell me that you feel the same I'll be right there  
I've been tired all the time it's a nightmare  
I got bags under my eyes, baby they YSL

Yeah, Balenciaga bags under my eyes  
I bought you Chanel sneakers just to walk up out my life  
I haven't been sleeping it's alright  
I just stare at my computer, guess it's just another night  
Got a little somethin' in the cellophane  
Got a little high off the melonade  
Smokin' cigs on the balcony  
Wonder if I'll ever make it back to reality  
Sorry if I don't respond, I was busy in my head  
Trying to write another song, anything to forget you  
Moving on isn't easy  
Yves Saint Laurent shades on, you can't see me

Tell me that you feel the same I'll be right there  
I've been tired all the time it's a nightmare  
I got bags under my eyes, baby they YSL

I know it's hard to change your habits  
Sorry if this shit gets heavy  
Sorry if I'm coming off, coming off strong  
We been up, we been up way too long  
Shit gets dark sometimes  
Sorry if I'm coming off, coming off strong  
Smoke a lot of ... to keep my mind off you  
Shit gets dark sometimes
