

# Basedworld Paradise

Lil B

American heart, Nubian skin  
If I known what I knew now I would probably be saved  
It's the based world pain, Based world paradise  
Looking through a new lens, my life is run by masculine  
My life is run by adrenaline, My brain is the key piece  
Nubian kings we at war, America we at war  
But my opinion is coming from a place of...  
I love life so much and history hates us  
But where's the information? I'm learning, calculating  
Scientific scriptures, people living off my vision  
We got too many soldiers, Who's going to be the lieutenant?  
Or the orchestrator? Who going to be player or coach?  
Shit, I'm taking them both!  
Player is coach, Niggas ain't mad  
I'm seeing thoughts i never had  
The whole race want a leader and I lead it  
The proofs in the pudding, I'm real but who's Jesus?  
I believe in god, I love my own spirit  
I pray in the church even though I'm not Christian  
I know The BasedGod, He as real as it gets  
Had to pull my pants up because I never been gay  
I don't need to use violence, I just use my brain  
Cause when you break it down, humans all is the same  
I don't got to explain, I make sure that I love educating the youth  
I make sure that I would, Make sure that I could  
Trip out sometimes cause I'm not right  
My heart is in a pure place, That's why I'm the rawest  
BASED WORLD PARADISE, BASED WORLD PARADISE  
I won't hide, no more, My smiles on  
I'm happy now, My frown's upside down  
You can't control that, (Nah)  
Money, Nah I won't control that  
As long as you're educated you could work a 9 to 5  
I control rap, Rapping 9 to 5 like FEDEX  
What your fucking box say? A lot of things  
Tell Mr. Phoenix I want a Phoenix  
You know we gonna see this, I'm so based  
Switch me to 10th speed, Get close to the ground  
I'm far, Man I never wear a helmet  
Taking chances when I ride, Feel the hearts one day at a time  
Money won't buy you this, I was born for a purpose  
No matter how many lives  
Some say that he weak I think he is fine  
Cause when you're from the hood we just getting by  
KRS-1, Public Enemy, Studied the greats  
Where we at today no excuses for it  
Basedworld Paradise, Come here and live your life  
You could walk around at night, You don't gotta look twice  
It's alright, Put your headphones on  
You're safe with me, We building the hearts, It all starts from Lil B  
Basedworld Paradise, We all in the game  
My attitude has to change, promoting unhealthy ways  
It's not my fault, TV's and the movies  
Before I could even read, I was out watching movies  
A lot of cartoons, Until I started getting older  
Seen some titties, Aliens fucked, The world's colder  
If you choose to love, Protect them with your soul

And I'm still, These people ungrateful  
Forgotten the person who raised them, You feel me?  
This is a fucking lottery, This is what I say man  
Got to do it for yourself, Fuck the law is what I say  
I'm here on the contract, Social security is the loan  
Renew my license, Another contract, What you think about that?  
Basedworld Paradise, We don't lie we up front  
I live for the future because my past is brutal  
Can't compute it, Can't teach in the class to the students  
Gotta be based to feel the music
