

## Doin Bad

Lil B

I'm like a beautiful mind, like I got my own genius, you know, it ain't hard to find, the love ain't hard to find inside

And I make it first  
Damn near nodded off, when I hurt that shirt  
My young light told me bruh got knocked off  
Voice was sour, had to go take a shower  
Thought in a hour that the pain go away  
But to see in my face and its hitting in my brain  
Last breath, it was talking about that message  
For the people lost their life half stepping  
Counting up blessings  
Open up their eyes  
Cause I walk around asleep  
Nobody knows when your love ones gone  
Stay growing  
And I love home  
Whatever bitch I love home  
Niggas coming off the dome  
Giving up pain  
Sliding with the throne  
Riding round town niggas all standing strong  
Got a hold weight, move that 8 long  
I seen suckas hold guns right by the waist up  
Trying to put you underground like dug outs and based ball  
I'm a get great, coming with the tech out  
Come full force, this that next route  
Lay 'em on the ground show 'em what the set 'bout  
Can't believe he gone and I still feel pain  
I'm moving to the top my feelings stay the same  
This that real game

Now, what you gon' do when you go on a drought now

I'm sleeping on the floor now  
Everything's war now  
People tell me slow down  
How can I slow down  
When people dying all around  
My mind float in every space  
The dope make me levitate  
Drugs on the dinner plate  
Niggas gon' always hate  
Until they see the game fake  
Too late  
So circa 68  
Dude like me see way, when I'm down bad  
My heart and thi- shit  
Is the only thing I ever had  
Now who can I really trust  
Blunt smoking after blunt  
I check with my P01's  
I can see it in her eyes  
That she got no heart  
But niggas don't say shit  
They treat me like a villian and I ain't even dangerous  
But I let the K split

Shit that ain't shit  
You suckas want war I'm here and I  
Y'all bitch ass niggas y'all gotta face it  
Glock nine 20 give you niggas face lifts

Now, what you gon' do when you go on a drought now
