

# Drop Out

Lil B

You think this shit funny bitch start talking shit  
You down on your luck mother fuckers start hating  
It's Lil B

In a world where been poor get you knocked up  
Not too much crimes but not too many outlaws  
Stress of life got me feeling like worth  
15 hours a day with four dollars of pay  
Feel to go hit the gun range and go blow off some steam  
Had to turn my check to the pin and lost leaves  
Turn to drugs and I dare mere who am I  
Cause the mirror want to lie to me  
Feel like everyday a tragedy  
One day my girl love me the next day she mad at me  
I ain't rich so she want to talk shit  
So the belief is backwards dumb bitch she lucky  
I will know her the fuck out and your brother bitch  
I shoot them ten bullets in his face  
And now I'm calling the fagot with a stick up his ass  
You dumb bastards  
Keep thinking thoughts that will hold you back  
I got a new plan to evict the rats  
You got to pick up where you left at  
You got to pick up where you left at  
You know am saying your mind go crazy  
Up and down every situation is just how you going  
What's the real

Drop out sometimes I just drop out  
I live my own life I find my own rout  
Drop out sometimes I just drop out  
I live my own life I find my own rout  
Live my own life find my own rout  
I live my own life find my own rout  
I Drop out sometimes I just drop out  
Live my own life I find my own rout

You came so far but you can't accept that  
To get help the best help is to help yourself  
You give yourself and then you watch yourself  
I confront anybody that talk down  
Most people gets left in the lost and found  
You might have got lost but you have not been found  
I got so many problems that I hold in  
Face them first and then you turn gold in  
Trying to deceive and then trying to force the growth  
Stay true to my soil and now my trees are growing  
From my roots everybody watch their steps  
Every goal that I set was to rep the set  
On my worst days I still rep the west  
The east and south and the north too  
Even in bad weather I'm a see it through  
Kansas city what's up I believe in you  
Trees don't grow on your birthday  
Keep it real they might blossom on your worst day  
Keep everything right nappy hair cause its  
Combing for the sunlight Lil B

Drop out sometimes I just drop out  
I live my own life I find my own rout  
Drop out sometimes I just drop out  
I live my own life I find my own rout  
Live my own life find my own rout  
I live my own life find my own rout  
I Drop out sometimes I just drop out  
Live my own life I find my own rout
