

# Everytime I Fail

Lil B

My priorities got me hand in hand with the authorities  
Trying to break the law and break their jaws  
Stick to myself I can't stick to the trap  
Tape on my back got me sticking to a trap  
Can't forget my dreams ain't no turning back  
Tryin to cut me short but I'm focused on stacks  
Black on black crime on black on black money  
White man face on this black man money  
Trying to relax and sit back on an island  
Rhyme first the other shit comes second  
Let me show you a tour of how I'm living in the message  
Back to back tours passport got stamped  
I'm the hit man your best friend got jammed  
Do the same thing trying to sharpen my skills  
Seeing new views got to move to the hill  
So dope for thrills if I keep working  
Do things I never thought  
Fuck fake friends anythings can be thought  
Only a few live but strict cold my cousins my brother  
Life's on the line I go for the team  
Digging million dollar dream mansion unseen  
Still in the hood I got to make mistakes  
Never second beakers he turned great  
You gotta have it in you want to see the top  
Can't be perfect I take everything I got  
I can't be stupid the smart thing to do  
Every time time I feel like it's stormy sea

Every time every time I fail I keep getting stronger  
The comeback real most days I don't even care  
But I'm so happy you still here  
Every time every time I fail I keep getting stronger  
The comeback real most days I don't even care  
But I'm so happy you still here

Keep fucking up and my blood run thicker  
Thinking to myself we some wild ass niggas  
Far from a nigga I'm only a man  
Everyone's a nigga not just a black man  
Everytime I come hand in hand with the truth  
Nothing comes easy not even the truth  
Trying to motivate stop going  
Learning everyday and even on the corner  
Can't be perfect that pride is talking  
Seeing true love when your eyes start walking  
Time flies like Mac Miller says  
Life's too good I can't believe I'm not dead  
Life makes you think about all the good stuff  
People make you think about when you are messed up  
I ain't got money am I still rich  
Nightmare telling me I won't be shit  
Trying to feed my soul without having loopholes  
Life's too good know who's whole  
Just want to go home I just want to go home  
Lil B yea

Every time every time I fail I keep getting stronger

The comeback real most days I don't even care  
But I'm so happy you still here  
Every time every time I fail I keep getting stronger  
The comeback real most days I don't even care  
But I'm so happy you still here
