Real gangsta shit man

I'm a tell you like this man I serve every day cause  
I feel like I'm dope running  
Dope running that real music bruh  
It ya boy lil b man

I'm ready for the funk  
Fuck what he say  
Feel like NFL I had to drop the replay  
Driving up pounds high siding on the freeway  
Gettin so I high that ya boy couldn't see straight  
Big bro cracked the pistol  
So it far from the issue  
The realest make you soft like the bottom of a tissue  
Its utensils and beef  
Taste the streets  
I taste the streets  
Everytime that I eat  
This silence ain't right  
Keep my heart in ensight  
People dying every night  
And that ain't never sounded tight  
I'm living in the jungle one move you're out of sight  
Gotta meet at the steps in afterlife  
In afterlife I'm watching over my back  
Cause even though you even in the sky  
You sold crack and died  
I wouldn't be surprised  
If you went back to hell  
I'm a protect Lil B because Task Force real, Bitchmob!

Niggas ain't fucking with me on my worst day  
You feel me [?]  
Yeah nigga this is what I do  
If you ain't a gangsta bruh  
Baby you a gangsta and you know it  
You a gangsta to man and you know that shit don't play  
You fucking with it  
Task Force, Bitchmob!

These niggas playin  
I'm on the corner blocking  
These streets like soccer cause everybody watching  
Alotta people see but nobody tellin  
A certified felon my PO know the rest man  
Last year I bought dope and I got hooked on it  
My advice to you don't do drugs homie  
At the bar station in east oakland watching the fireworks  
People looking at my car and just shows you how God works  
Keep ya prayer in the sky  
Anyday could be death  
I rap about it  
Cause in the hood where I step

But a nigga never left because I'm closer than ever  
I just tightened up my  
And got my shit together  
And I'm focused I got a scope on the dresser  
People acting like my friends but they ain't going together  
People acting like my friends but I watch yo bitch ass  
And I can't fuck with snitch ass keep it real  
This life and times with Lil B I love my squad  
You need an army just to deal with me  
TASKFORCE BITCH!
