

Total Recall Remix

Lil B

Ugh shit, Start to forget my mind, start to forget everything,
ever since I came in basedworld nothing's been the same I lost
everything, my house, my car, my wife, my bitches, my money, it
s like everything's just been erased from my life, I feel so po
sitive still, still I don't give a fuck

Erybody take shots today on my court
I play on defense, its something like Ty Law
Basedworld family is something I would die for
Don't get greedy cause you always gon' want more
Live more, ain't enough you come to the crossroads
You living like a nigga wouldn't want those
The bullets on your head like some motherfucking cornrows
I'm talking bout the lick bitch, I'm finna get on those
Feeling real out of place
Feeling real out of shape
I ain't thugged in a minute cause I'm in a different space
I'm ridin with it cause I'm special homie
And fuck what the people say
You know they hatin on me any way
What's the difference if you know I'm the rawest rapper
V12 with the verses you can call me faster
V12 with the work cause I move plastic
Nobody see the pain through my eyes
True lies, spitting dough with them shady guys
And I fuck with Task Force cause they down to ride
And you can't erase my whole memory
Watch by the feds, y'all send for me
And I know about my history, bitch
And I don't give a fuck about it
I'm living for the future, gotta stay protected
I got world class shooters, that's real based music
Total Recall, close your eyes and listen to it
It's Lil B based music
