

Vampires

Lil B

I'm upside down

I'm in control of the night-time

Shout out to AE

Shaka Zulu

Niggas is hurting like Twilight

Hiding from the daylight

I can't have nobody see me

Secretive

Upside down next to my brothers

God licking holy water

The cross is something altogether I stay away from

One bite, you'll be gone forever

Look me in my eyes, I look normal

Deep inside I've got a problem

Often I won't acknowledge

People just think I'm awkward

Sleep up in the coffin

No speakers

A lot of smoke but no reefer

A lot of people take their life for granted

I'm cursed and can't stand it

Damned it

Niggas canned and played out

Your blood come in handy

I've got a taste for human flesh

Some call me up

Sandy

She thinks I'm cute

And normal

She gives me her soul because I'm abnormal

She feels that I'm better than whoever

We have a problem

She got me thinking by 12 o'clock

I be another person

She the perfect sacrifice for dessert

I stay working

Baby, just calm down

Feel weird my hands are numb

Fangs coming out my teeth

Am I done?

Am I spun?

Fuck that

I'm a vampire

Fuck that

I hide a Moses in the back of my Naga Cerebro

Looking like Professor X when he met the leader

Very converted

My heartless nights

I'm sure I had a purpose

But I forgot it

The influential person

They put me down in my brain

I followed because it was a mirror of pain

Peep this

Monkey see, monkey do

You look like me, I look like you
I was clouded by thinking
My conscience tore apart
Until I lost the greatest heart
I stopped fighting vampires
Like it? They loved it
Another soul for destruction
Upside down
Then
Nightmares is now

I'm a vampire now!
Don't let the vampires get you
No
Don't let the vampires get youuuuu
No
Don't let the vampires get you
No
Don't let the vampires get youuuu
No
Don't let the vampires get youuuuuuuuu
OoOOooHHHOOoh
Don't let the vampires get you
