On the streets man them boys watching with the scope  
Better duck them boys hanging out with the folks  
My own friend try to play me I'm a let you know  
I'm a let you know about the trials and tribulations  
I'm a tell you bout the t-shirt penetrated  
Never stop, been in this place before  
I been down, I been bleeding nigga that's for sure  
I'm a tell you bout the losses that I took  
I'm in the bush, most wanted posters on it  
I'm coming through, I got the toaster on me  
You already know my situation demonstrated  
If you know I fuck with you then it's solid  
I got knowledge, taking life's college  
Gambling on the table of life, stacking my money every night  
I can't stomach it, right

People over here with the shit  
They ain't talking bout shit but they dying for the shit  
Man my stomach hurt, man I'm coming hard bitch fuck your worth  
People over here dying with the shit  
They ain't talking 'bout shit but they dying for the shit  
Man my stomach hurt, coming hard bitch fuck your worth

People over here with the shit  
They ain't talking bout shit but they dying for the shit  
Man my stomach hurt, man I'm coming hard bitch fuck your worth  
People over here dying with the shit  
They ain't talking 'bout shit but they dying for the shit  
Man my stomach hurt, coming hard bitch fuck your worth
