

How It Feels

Lil Baby

(What's happenin Chi Chi)
(Section 8 stay cooking in this muthafucker)

I just put a Mansory kit on top of a Lamb truck
I know how it feel to stay down run you some bands up
100 grand on me, it's hard holding my pants up
TR raised a hellcat motor inside a Ram truck
Real ones like me hard to come by, its only a handful
Ain't no money in the world that make me give me mans up

I know how it feel to think everybody against you
I know how it feel to watch bullets go through a windshield
I know how it feel when you try your best to be real
I know how it feel when you think no one understand you
I know how it feel when the one you love gettin' ran through
I know how to feel I really cut off my mans too
I know how it feel when you broke and them bills are past due
Aw you thought this shit was a joke we on yours ass too

I can't give me my energy to anybody
I'ma billionaire in the making when I make it I promise I'ma get one
Look bitch tryna chase me had a stiff on me
Only had a couple dallas I was still gettin' fresh
I ain't tryna sound cocky but I feel I'm the best
Every time I want the maximum, I ain't takin' nothin' less
I been back to back jets, but I still fly Delta
Thick lil' shit but she can fit in my schedule
Yeah I'm always on the go, but I make time for that ass
No I gotta lie but I'm the ground tryna get marriage
I know I become but I am no where near average
100 millon dolla cold cash gettin' buried
Lookin' at them animals comin' it's gettin' scary
All these bithes fuckin' whoeva, who gettin' married
I ain't tryna go back to nothin' I'm tryna have shit
I be quick to pick up that blicky I gotta bad wrist

I know how it feel to think everybody against you
I know how it feel to watch bullets go through a windshield
I know how it feel when you try your best to be real
I know how it feel when you think no one understand you
I know how it feel when the one you love gettin' ran through
I know how to feel I really cut off my mans too
I know how it feel when you broke and them bills are past due
Aw you thought this shit was a joke we on yours ass too
