

Blood, Sweat & Tears

Lil Cuete

You say down to beef but you don't want it though
You don't want it though you don't really want it though
You say you bringing heat but you ain't got it no
You ain't got it no you don't really got it no

Naw you ain't never ever banged on the streets keep my nine on
the side when I hang on the street
And I'm never gonna change mine getting all my weed time find m
e counting money with my honey on my free time
They wanna see me slip, they wanna see me fall, they want me on
the sideline but I'm only gonna ball
I'm stacking up my ends that's just how it is its getting easy
now but I've been working for years
I got a big gun and big clip too say the wrong shit and they'll
booth find you
That's the way it is hard knock in my city where my hatters at
where you at come and get me

You say down to beef but you don't want it though
You don't want it though you don't really want it though
You say you bringing heat but you ain't got it no
You ain't got it no you don't really got it no
[x2]

I feel like I need to get away from all the fakes
Got'em steady hatting cause they know I'm getting payed
But I stay on my hustle always keep on my grind
Couldn't see me with a telescope but I ain't hard to find
I'll never be fake I'll always keep it real
When they see me drive around they already know the deal
When my gun catch'em swoohead bullets to they head
No feature left shouldof herd me when I said
That I got a big gun and big clip too
Say the wrong shit and they'll booth find you
That's the way it is hard knock in my city
Where my hatters at where you at come and get me

You say down to beef but you don't want it though
You don't want it though you don't really want it though
You say you bringing heat but you ain't got it no
You ain't got it no you don't really got it no
