

Pole Work

Lil Debbie

(Kid Classic)

Poke it out, throw it back, you gotta fuck it up
Do it on the dick, hit a split, get a Benz truck
Fuckin' with the bread when you coulda been up
Ride or die bitch, Bonnie an' Clyde, it's a stick up

Wasn't really in the mood, had to hit it wit my chin up
Suck the dick non-stop till you hiccup
Don 42, [?], baby sip up
Demon Time the whole life, you finna ruin, huh
You lookin' good, you want me to come pursue it, huh
Pole work, she get freaky when she do it, huh
(Pole work, she get freaky when she do it, huh)

Tick tock, she gon' do the little dance for me
Back in, had her money in advance for me
[?], she want one more chance with me
Pink slip, we don't do the finance in it
Tick tock, she gon' do the little dance for me
Back in, had her money in advance for me
[?], she want one more chance with me
Pink slip, we don't do the finance in it

Strip club, cashin' out on a big bitch
Take it to the back, me and Kitty finna split this
The other kitty's so good it's on his wishlist
Cartier diamonds shine bright 'cause my wrist lit
OG, that's my bitch, she keep it stitch slippy
Like it when I drive him crazy, ridin' on that stick shift
We go around, sweat it out like it's fitness
Had him singing in the bed like a courtroom witness
And you gotta pay a fee, bitch, don't forget the interest

Tick tock, she gon' do the little dance for me
Back in, had her money in advance for me
[?], she want one more chance with me
Pink slip, we don't do the finance in it

OG, yeah bitch
Pop one, pop two, it's a lit night
Sugar daddy sent the CashApp, it's a quick flight
Spent the whole check coppin' Gucci, bitch I just might
Wet, warm, pretty and I always keep my shit tight
Keep blowin' up my phone for a one-nighter
He gotta be freaky, use his thumb like a hitchhiker
Sugar baby, me and Asia, yeah that's the empire
Got your baby daddy in my DM tryna inquire

Tick tock, she gon' do the little dance for me
Back in, had her money in advance for me

[?], she want one more chance with me
Pink slip, we don't do the finance in it
