

# Too Bad

Lil Debbie

Deuces

Done with your excuses

Play with my emotions, all that bullshit you been shootin'

Swear that you my only one like I ain't been recruitin'

Like everyday somebody don't tell me about my beauty

Like I just light up the room

Light up the room

Fight over you

Nothin' I can do

Just know you lost me

I'm gone like I'm off rossi

You had your chance to be with me

It ain't my fault you fucked it up

That ride or die you said you needed

Somebody else done lucked up

What happened to the promises!

Honesty!

Finer things you forgot about!

Sorry if I can't come out

'Cause my new boo is always around

He make me feel so good, good

He make me feel better than you ever could

He got me feelin' fine, fine

It's too bad you outta time

You had your chance

You had your chance

You had your chance

(And it's too bad, it's too bad)

You had your chance

You had your chance

You had your chance

(Now it's too bad, too bad)

I ain't got time for the heartache

All I got time for is getting right

The last day I spoke to you I celebrated the same night

I re-routed, I changed flies, I switched up and I got some new

Killa in the bed, wake up gettin' fed, every night is good sex I'm talkin'

Whew!

Trippin' off what I ain't missen'

Really thought I was gon' lose it?

I'm coutin' my money, he countin' his money, we both on a hustle

Just cruisin'

Shit,

To be a boss, date a boss, build an empire

You know the quote ridin' high, ride or die, ridin' fly know me we gon' make  
the most

He make me feel so good, good

He make me feel better than you ever could

He got me feelin' fine, fine

It's too bad you outta time

You had your chance

You had your chance

You had your chance

(And it's too bad, it's too bad)  
You had your chance  
You had your chance  
You had your chance  
(Now it's too bad, it's too bad)
