[Brain:] Brain  
[Lil Dicky:] LD  
[Brain:] You mix some Brain with some LD

Never even done cocaine  
I've never even done cocaine  
I never even tried it, never even tried it  
Never even tried it, you know I ain't lying  
Never even done cocaine  
I've never even done cocaine  
I never even tried it, never even tried it  
Never even tried it, I've been close-minded

Party girl, party girl  
Out in LA with a party girl  
I was all good with Bacardi, girl  
Now she tryin' to up the ante  
I was kinda drunk and handsy  
Johnson looking long like Randy  
Hoping that my pitch is strong  
Now she's like "let's do some bumps"  
Ew, chill I don't do that (Ew!)  
Poured a rail and she blew that  
Now I'm scared, I look pussy  
Spark the blunt 'cause I do that  
She was sniffing that Tom Hanks  
I was just sipping Chris Brown  
She keep on sniffing that Zeus (Coke)  
I keep my eyes on the ground  
She like "don't knock it 'till you try it"  
That's some bullshit (yeah, I know)  
Just do a line of this Betsy Ross  
I started thinking, can't deny I'm a pussy  
Like as a child I was so dismissive of the baked potato 'till I tried that  
shit  
Now the baked potato is my favorite kind potato  
Now she got me wondering what else I left on the table  
Twenty-eight, I still ain't done no anal (true)  
And I'm unusually skeptical  
But man oh man this bitch was raw  
So I asked her for some Molly  
She like "start with Miley"  
I'm like "give me Molly"  
Crazy 'cause I

Never even done cocaine  
I've never even done cocaine  
I never even tried it, never even tried it  
Never even tried it, you know I ain't lying  
Never even done cocaine  
I've never even done cocaine  
I never even tried it, never even tried it  
Now I'm doing Molly, I hope I survive it

Brain  
Flippin' a bitch and I'm poppin' this shit and I don't really feel it yet  
He never done it before and I'm worried I'll feel neglect

But I ain't trippin'  
Balmain, Brain 'bout to get to kissing  
I'm sauced up, fucking with this breezy boo  
Haven't eaten since four, man I need some food  
Why these broke people looking at me? (you broke)  
I'm feeling good and happy  
Hold up the Molly kicking in now  
I think I should sit down  
Brain for the win now  
I think we should dip now, girl let me know (we should dip)  
Brain overwhelmed losing control of this front lobe (hello)  
I was G'd up, now I'm T'd up  
Like a ball playing motherfucker in Atlanta  
Shout to Dwight Howard  
In case she didn't let him (ew!)  
And now I'm puking  
Girl I blew it, but I was just doing my j-o-b

Brain, what the fuck is going on?

The molly got me shakin' and clenchin' on the jaw  
It got me going crazy

It got me going crazy

How the fuck you blame me?  
You the one that popped MDMA  
When you never ever even done cocaine  
Never even done cocaine  
Never even tried  
Oooh Brain

I never even done cocaine  
Never even done cocaine  
I never even tried it, never even tried it  
Never even tried it, you know I ain't lying  
I never even done cocaine  
I never even done cocaine  
I never even tried it, never even tried it  
Never even tried it, I've been close-minded

I never even done cocaine  
Never even done cocaine (that Paul Rudd!)  
I never even tried it, never even tried it (Sue Bird)  
Never even tried it, you know I ain't lying (Meryl Streep)
