

# Who Am I?

Lil Double 0

Who am I? Might have to tell you to cry when I look in yo eyes  
Know you fucking with me but I'm deep in the streets ain't no love in  
my heart baby that shit fried  
The majority of my loved ones up in the sky  
Took a Percocet pill cause I wanna get high  
Put a drum in a choppa let's take us a ride  
When you gotta shoot fye  
When you fuck with me tough gotta show me you do  
A lot niggas won't make it a mile in my shoes  
The world do not know what I went thru  
But I rap they don't know what lil double 0 do  
It's bout 3 in the morning I'm stuck in the booth  
Working hard everyday taking care of the crew  
Wish my grandma was here but she ain't  
I got racks in the bank  
Only 19 doing the shit they can't  
Fell in love with that wok I don't turned to a fein  
If the price look right imma buy the whole pint  
You know I be smoking exotic I get out my body hit the dope too hard  
might faint  
How the fuck he a young nigga and he got rank  
Big team 4k I don't care what they think  
Big body maybach gone take up the lane  
Yeah lil double 007 gone switch up the game

Who am I? Not to tell you to cry when I looked in yo eye and told you  
plenty of the lies

Know you fucking the gang  
Fuck with plenty of guys  
Can't show you no love cause I'm come from the block where them young  
niggas savage and do homicides  
My pops was a robber got hit with that fire  
So it made me go harder I can't even lie  
I know you with the move when I look in yo eyes

Who am I? Not to tell you to cry when I look at you and tell you the  
lies  
Know you fucking with me but I'm deep in the streets ain't no love in  
my heart baby that shit fried  
Majority of my loved ones up in the sky  
Pop a Percocet pill cause I wanna get high  
Put a drum in a choppa let's take us a ride  
If you fuck with me gotta show me you do  
Lot of niggas won't make it a mile in my shoes  
The world do not know what I went through  
They just know what I rap  
They don't know what lil double 0 do  
It's bout 3 in the morning I'm stuck in the booth  
Working hard everyday taking care of the crew  
Wish my grandma was here but she ain't
