

Got Somthin' For U

Lil Durk

Girl, I got something for you
I got some things that I wanna show you
And your body in my bed
Put your legs over my shoulders
Lay your body down, and we can take it slow
Slow
Slow
Lay your body down, and we can take it slow
Slow
Slow
Slow

Take it slow, fast
Baby, you the one to do it
No hands, to see if you would like it
Your body shaped perfect, like your boy kinda sighkick
I wanna beat it up, like [?] no fighting
It's like lightning, by the way I do it
And it shock you, the way I storm into it
Ow I rock into it
How I drop into it
I know you love that
The way I rock into it
Girl, I know you love that
But it's me, only me, and it's you in this relationship
It's me, only me, and you in this relationship
I am gonna get it, 'cause I know that you love that
I am gonna do it, 'cause I know that you gon' love it
Dreadlocks hanging through the side of my neck
You can pull down my neck, you can pull out my dick
And I see that you want it, girl
So I m gonna give it to her

Girl, I got something for you
I got some things that I wanna show you
And your body in my bed
Put your legs over my shoulders
Lay your body down, and we can take it slow
Slow
